Databases & Tools: Oracle 7/8/9, MS-SQL, SQL-Loader, SQL Navigator | **Languages:** C, C++, Java, .NET, ASP.NET, XML, HTML | **Software:** Forte for Java | **Operating Systems:** Windows, UNIX, Linux

EXPERIENCE

Database Administrator 2021-06-01 – Present
Oracle *Delhi*

- Managed and maintained core Oracle databases ensuring high availability and optimal performance.
- Performed database administration tasks including backups, user management, and security configurations.

CRM Trainee 2020-12-01 – 2021-03-31
BetaEdge Innovations

- Implemented Dynamics 365 CE Sales and Customer Service Modules, and created Model Driven Apps for HRMS and GP Kashipur.
- Created custom entities, forms, views, and configured users, security roles, business units, and teams.
- Developed JavaScript logic within the HRMS application to manage and assign employee leaves.

Intern 2018-10-01 – 2019-03-01
Milostones Pvt. Ltd.

- Supported seniors in maintaining 30+ Oracle databases and upgraded 9i databases to 10g including data guard implementation.
- Performed database cloning, re-location, and assisted in upgrading databases from lower to higher versions.
- Helped manage tablespaces, data files, redo logs, tables, segments, and assisted in installing Oracle software and patches.

PROJECTS

Ride Booking Application | *Spring Boot, Eureka, Redis, WebSocket, JWT, Retrofit, REST APIs*

- Developed a scalable Spring Boot microservices platform with Eureka for service discovery and real-time driver-client tracking using Redis and WebSocket.
- Implemented JWT authentication and inter-service communication with Retrofit, and built modular booking, review, and Auth services using Spring Security, JPA, and REST APIs.

Web Application on Car Store System | *Java, MySQL, HTML*

- Created a web-based application for an online car store system enabling customers to search for cars, place orders online, and manage bookings.
- Designed a fully functional website incorporating backend data management using MySQL for vehicle prices, models, and customer visit dates.
